 It's so nice to see familiar faces again. The winter months get a little lonely up here! We have got some wonderful things planned for this year. Take a look around the park and I'm sure you'll notice some much welcomed improvements and changes. We have made great strides over the winter months to "polish the apple" here at the park. And we're not done. We have also made significant changes to our activities and we hope this will improve your summer fun as well as give you all the opportunity to meet more people and make new friendships. We already have welcomed 9 new families to the park this Spring. There has been a tremendous interest in Lakeland and phone calls for seasonal sites has been non stop! Many new families are experiencing what many of you have known for some time, that Lakeland is a great place to spend your summers!!
